## ANOTHER AERZEN INSTALLATION IN SOUTH TEXAS

**Aerzen USA** recently supplied their Delta positive displacement blowers to the **City of Morgan's Point WWTP** as part of a package wastewater treatment plant provided by AUC. The plant was designed by **CobbFendley** (Houston) and constructed by **B-5 Construction** (Houston).

**JUNE 10-13  
TORONTO, ONT**

More than 15 of our manufacturers will be exhibiting the latest in equipment technology at the **ACE 23 Conference** organized by the American Waterworks Association.

## NEW EAST TEXAS PROJECT

### Mount Pleasant WWTP

- Engineer: **KSA Engineers** (Longview)
- Contractor: **Heritage General Contractors** (Paris)
- Equipment: **AquaDisk® Filters** by **Aqua-Aerobic Systems**  
**Fine Screens & Wash Presses** by **SAVECO N.A.**  
**Secondary Clarifiers** by **Walker Process**

## ANOTHER FIBRACAST MBR IN TEXAS

The **Trinity River Authority of Texas** recently selected MBR technology from **Fibracast Ltd.** for the upcoming expansion of the **Denton Creek RWS**. Fibracast's innovative **FibrePlate™** offers an integration of traditional hollow fiber and flat plate technologies. Featuring horizontally mounted modules, the **FibrePlate™** MBR system provides a reduced footprint and free-flow passage through the cassettes, thereby eliminating debris collection zones. The **Denton Creek** expansion will incorporate a 5.0 MGD MBR, and is being designed by **Black & Veatch** (Dallas).

## MORE INNOVATIONS AT VERDER

Verder's **Verderflex Ds500** peristaltic tube pump offers a number of benefits for metering pump applications. Featuring high accuracy performance (+/- 1%), the Ds500 offers significant turndown capabilities, one click, tool free cartridge changes, and an integral touchscreen control panel for easy set-up and use. If you're looking for better performance in your chemical metering applications, please contact us to learn more about the features and benefits of the **Verderflex Ds500**.
