REMEMBERING RON CULP

It is with great sadness that we announce the passing of Ronald F. Culp, co-founder and long term President of Hartwell Environmental on February 21, 2022 at the age of 72. A graduate of the University of Maryland, Ron spent over 50 years in the water and wastewater industry, first with Koppers/Environmental Elements, followed by more than 40 years with Hartwell Environmental and its legacy predecessor, Hartwell

Engineering. Ron's vision led to the formation of Hartwell Environmental in 1997, and his steady leadership provided the foundation for Hartwell's growth into the company it is today. Ron served as a mentor to the members of the Hartwell team, and his sage advice and leadership skills led to the continued growth of Hartwell until his retirement at the end of 2019. We will deeply miss his easy going nature, quick wit and ready smile.

TEXAS WATER 2022

More than thirty of our manufacturers will be exhibiting with us this year in San Antonio for Texas Water 2022, April 4 - April 6. Please try to attend and see the latest in technology on display. We have free passes to the exhibit hall if you need one! Just give us a call. We'll see you there!

AQUA-AEROBIC 2022 SEMINAR SCHEDULE

Many of our clients and engineers from Texas and Oklahoma take advantage of the Aqua-Aerobic Technical Seminars each year. This is a great educational opportunity so please consider attending a one day technical/non-commercial session held at their Rockford, Illinois headquarters, just outside of Chicago. There are four seminars offered as follows:

**AQUA-AEROBIC
SYSTEMS, INC.**
A Metawater Company

June 23	Topic: Nutrient Removal and Management
August 25	Topic: Energy Management/Recovery and Green Technologies
September 22	Topic: Innovative Technologies for Emerging Applications
October 27	Topic: Water Reclamation and Reuse

You will also have an opportunity to visit the Aqua-Aerobic Research & Technology Center. Educational credits are provided for operators and engineers. There is No Cost for attendees for either the seminar or associated travel. Please contact us for additional information.

INTRODUCING A NEW LINE

360water®

We are pleased to announce that Hartwell is the new representative for 360water, Inc. in Texas and Oklahoma. 360water is the industry leader in providing online continuing education and customized operation and maintenance training to the water and wastewater markets, offering municipalities a cost effective, comprehensive training solution. Feel free to visit their website at www.360water.com or contact us for more information.
